Why ArtKit?

NFT (Non-Fungible token) is a unique digital asset that can we use to represent ownership of unique items. Many unique items already implemented based on NFT such as Game items, digital art, music, film, and other uses.

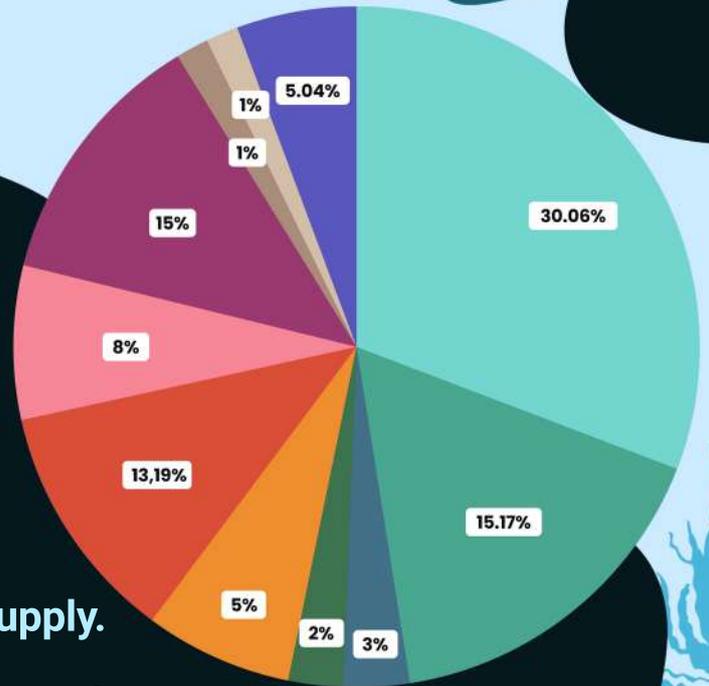

ArtKit is Social Media NFT Platforms that will enable the users to create, share, and collaborate to make the story & utilization on NFT. ArtKit also can be the place for everyone to enjoy the art & show. To enjoy the Art, ArtKit will develop our own Social Media NFT Platform and enable the user to create the story & add utilization for an NFT. So, it will make the NFT more interactive & the common people will understand what for the NFT is. The user also can buy or sell and give like or comment on NFT. They also can support the NFT Creator by doing a donation or collaborate each other by creating their own community page.

To enjoy the Show, ArtKit will build a museum based on Metaverse Technology in SAND or MANA or even our own metaverse. It's to facilitate the creator to show their artwork, held concert, standup comedy, and held other show.

To make everything more interesting and develop the community, ArtKit will hold some events either on the website (eg: ARTILuckyBox) and in the metaverse (eg: standup comedy). Not only at website and metaverse, but we will also make the event for our community in community channel like Telegram or in our social media. So, Let's join our community!

TOKENOMICS

PASSIVE STAKING REWARDS IN YOUR WALLET

As per the contract, ArtKit holders automatically receive a distribution from **4%** of each transaction of the ArtKit token to Bitcoin.

This function is a unique and easy way for holders receive rewards directly to their wallet without the need to stake or farm on other platforms.

The passive staking rewards from holding ArtKit increases your Bitcoin. You need at least hold **25.000.000** ARTI to activate this feature.

USE CASES/ECOSYSTEM

Our development team is constantly working to bring new utility to ArtKit (\$ARTI). As of now, ArtKit has use cases:

- **ARTIFarm.** This feature will enable the holders to get 4% BITCOIN from every transaction. The holder should hold minimum 25 million ARTI to enable this feature. And holders can see exactly how much Bitcoin they've accrued from the ARTIFarm by using our feature named **ARTITracker**.
- **Burn.** As we mentioned in the Tokenomics, we will do the initial burn to reduce our supply. We also plan to have periodically token burn.
- **Social Media NFT Platform.** The platform will enable the users to create the story for an NFT and attract the buyer/collector to comment, like, and share the artwork. So, the NFT will be more interactive. They can also support the NFT creator by doing a donation or collaborate each other by creating community page.
- **NFT with Utilization.** Every NFT which will be minted in ArtKit has their own utilization. For example, if you buy NFT "A" you will get special dividend from ArtKit. Or if you buy NFT "B" you will have a discount on every concert held/sponsored by ArtKit. We will bring this utilization in real life & metaverse in the future by cooperate with many stakeholders and NFT creators.
- **Metaverse.** ArtKit will build the museum/exhibition in Metaverse. So, the collector and creator can post their artwork, held concert, standup comedy, and enjoy other show.
- **Event.** To make the ArtKit more interesting again, we will have many events for our communities and holders. The event will be held in our website, metaverse, or even on our community channel like in Telegram or social media. In the website, there will be an event named **ARTILuckyBox**. This event will enable the holders to participate in NFT sales and get NFT with low price and has a chance to get special NFT with legendary utilization like Free pass to all events, yearly dividend, and so on. This is the best opportunity for collectors, so don't miss out!
- **Badge.** We will classify the collector/creator based on their collections or their popularity. We will define ranking and badge. So, the collector/creator will get many benefit & enable some feature in our Social Media NFT Platform.
